Garantizar la persistencia

ORCID: We won't be sold

AUGUST 16, 2016 BY [LAURE HAAK](#)

ORCID was founded to deliver a specific goal: every researcher who wants to have a unique lifelong identifier should have one, and be free to use it in their daily work.

Every time a researcher, scholar, or other should be able to connect their identifier knowledge – in whatever form it takes – created it and the places and spaces well summed up by our [vision](#) of a world where scholarship, and innovation are unique contributions and affiliations across disciplines.

INFRASTRUCTURE

The ORCID Board completed a self-assessment this year, and a thorough review of [ORCID governance policies](#) has resulted in the creation of a [Board Charter](#) and clarifying updates to our bylaws. We undergo annual external audits of our financials, led by our [Audit Committee](#) and supported by Operations Director [Sarah Hershberger](#). We are thrilled to declare that in 2019 we have reached breakeven! In addition to a financial audit, we also undergo an annual external privacy and security audit, this year led by [Will Simpson](#), who in addition to being our Technology Director has assumed the mantle of ORCID Privacy Officer. And if that is not enough in one year, Will and Sarah worked with the Audit Committee to create a risk register, which we are using to prioritize actions for the coming year.

¿Por qué ORCID?

¿Por qué ORCID?

"La capacidad de identificar de forma exclusiva a los contribuyentes es un concepto engañosamente sencillo que, de hacerse realidad, podría permitir formas de comprensión en tiempo real de la investigación científica que hasta ahora han sido extremadamente costosas (si no imposibles)".

Jonathan Kram - Wellcome Trust

ORCID está impulsada por la visión de un mundo en el que todos los que participan en la investigación, la erudición y la innovación están identificados de forma única y conectados a sus contribuciones a través de las disciplinas, las fronteras y el tiempo.

Los consorcios de ORCID proporcionan

- Alineación con la visión y los objetivos de ORCID
- Apoyo para el establecimiento de comunidades de práctica de ORCID, incluyendo personal dedicado en la organización líder del consorcio
- Recursos compartidos, materiales de comunicación y eventos para su comunidad y más allá

¡Ustedes nos permiten escalar y crecer!

Identidad digital a escala mundial

- La OCDE informa de que más del 60% de los investigadores de cada campo declaran utilizar su ORCID iD como identidad digital en su investigación.
- Más del 50% de los investigadores de cada país declararon utilizar los ORCID iD.

Note: Weighted estimates based on sampling weights adjusted for nonresponse. Less than 2.5 percent of authors in each field reported using other types of identifiers.

Una visión impulsada por los PIDs

Los PID sólo son poderosos cuando se combinan.

- PIDS for people — close to 8.9M [ORCID](#) iDs
- PIDs for places — over 91k [ROR](#) identifiers
- PIDs for “things” — over 115M [Crossref](#) DOIs and 30M [DataCite](#) DOIs

“A medida que crece la adopción de la PID, aumenta la conciencia de la necesidad de que las organizaciones, los países e incluso las regiones desarrollen una estrategia global de PID”.

Alice Meadows

ORCID en políticas públicas y buenas prácticas

Where possible, contributors should also be uniquely identifiable, and data uniquely attributable, through **identifiers** which are persistent, non-proprietary, open and interoperable (e.g. through leveraging existing sustainable initiatives such as [ORCID](#) for contributor identifiers and [DataCite](#) for data identifiers).

European Commission, Directorate General for Research and Innovation. (2017). *Guidelines to the Rules on Open Access to Scientific Publications and Open Access to Research Data in Horizon 2020*.
https://ec.europa.eu/research/participants/data/ref/h2020/grants_manual/hi/oa_pilot/h2020-hi-oa-pilot-guide_en.pdf

Strongly recommended additional criteria for all publication venues:

- › Support for PIDs for authors (e.g., ORCID), funders, funding programmes and grants, institutions, and other relevant entities.

Coalition S, Plan S principles and implementation

RECOMMENDATION #8:

The European research system and Open Science Cloud should adopt ORCID as its preferred system of unique identifiers, and an ORCID ID should be mandatory for all applicants and participants in FP9. Unique identifiers for individuals and research works will gradually improve the robustness of metrics and reduce administrative burden. ORCID provides researchers with a unique ID and associates this ID with a regularly updated list of publications. It is already backed by a growing number of funders across Europe (<http://about.orcid.org/>). The EC and ERC should utilise ORCID IDs for grant applications, management and reporting platforms, and the benefits of ORCID need to be better communicated to researchers and other stakeholders (Galsworthy & McKee, 2013).
